

PPQ Science and Technology Directorate
Document List for *P. ramorum*-related diagnostics

Document Number	Current Version (effective date)	CPHST-Beltsville Document Title
WI-B-T-0-11 A	Revision 2 (effective 5-14-2015)	Screening Conventional (Nested and Multiplex) PCR assays for detection of <i>Phytophthora ramorum</i>
WI-B-T-1-6	Revision 8 (effective 10-28-2015)	(ITS) Quantitative Multiplex Real-Time PCR (qPCR) for Detection of <i>Phytophthora ramorum</i> Using a TaqMan System on the Cepheid SmartCycler® and the ABI 7900/7000
WI-B-T-1-7	Revision 3 (effective 2-24-2009)	Elicitin Quantitative Multiplex Real-Time PCR (qPCR) for Detection of <i>Phytophthora ramorum</i> Using a TaqMan System on the Cepheid SmartCycler®
WI-B-T-2-3	Revision 1 (effective 4-6-2015)	Extraction of DNA from Leaf Sub-samples for <i>Phytophthora</i> spp. PCR analysis
WI-B-T-4-2	Original (effective 7-20-2007)	Supplemental Instructions for Agdia DAS ELISA for <i>Phytophthora</i> species

This list is current effective November 7, 2019 and subject to change. The current versions of all the Work Instructions are maintained on the APHIS Laboratory Portal (<https://www.nahln.org/member/login/>) Please contact Nicole O'Donahue at nicole.i.odonahue@usda.gov for *P. ramorum* document-related inquiries.
