

APHIS Approved Offshore Greenhouse Certification Program for Unrooted Vegetative Cuttings Facilities as of March 21, 2023

Unrooted vegetative cuttings from approved generally admissible plant taxa may **only** be sent to United States PPQ plant inspection stations if sent from one of the approved facilities authorized to participate in the offshore greenhouse certification program listed in [Table 1](#) below. See the [USDA-APHIS-PPQ Offshore Greenhouse Certification Program](#) and [Offshore Greenhouse Certification Program Framework](#) for information about the program. See the [Plants for Planting Manual](#) for information about generally admissible plant taxa.
