

**Basis for changes to the Pale Cyst Nematode (PCN) Regulated Area
January 10, 2020**

The following changes have been made to the PCN regulated area since the November 20, 2018 publication:

Approximately 404 acres of associated fields have been released from regulation under the Federal PCN Final Rule (effective April 29, 2009). The locations of the fields, deregulated after completing a release protocol comprised of a sequence of surveys with negative laboratory results for PCN, and in accordance with the Federal PCN Final Rule subpart 301.86-3(d)(2) *Removal of fields from quarantine – Associated fields*, are as follows: Bingham County – T01N, R37E, section 35; T02S R36E section 22; and Bonneville County – T01N, R37E, section 14; T01N, R38E, section 20.

With these changes, the current regulated area is 7,150 acres, of which 3,446 acres are infested fields.
